

29 May 1970

MEMORANDUM FOR THE RECORD

SUBJECT: NSA Pay Factors

REF : Attached Data from Mr. Segal, NSA

1. At a meeting today with [redacted] since we had to make a command decision in order to run computer output for DASD(I) immediately, we agreed that we would use the NSA pay factors shown in the attached document under the column heading FY-72, and apply these factors to all years. This is necessary because DASD(I)'s time schedule does not permit us to rewrite software to make it possible to use different pay factors for different years.

25X1

2. As a modification to the foregoing general rule, in the case of the Military in NSA, it was determined that the ASD(Comptroller) pay factor promulgated with the final Jan. 70 update of the FYDP would be used for NSA Military Pay rather than the figure of [redacted] shown in the attached [redacted] made these decisions.
